

medical review officer has determined that the employee may return to duty. An employee who returns to duty shall be subject to a reasonable program of follow-up drug testing without prior notice for not more than 60 months after his or her return to duty.

[53 FR 47096, Nov. 21, 1988, as amended by Amdt. 199-2, 54 FR 51850, Dec. 18, 1989; 59 FR 62227, Dec. 2, 1994]

§ 199.13 Drug testing laboratory.

(a) Each operator shall use for the drug testing required by this part only drug testing laboratories certified by the Department of Health and Human Services under the DOT Procedures.

(b) The drug testing laboratory must permit—

(1) Inspections by the operator before the laboratory is awarded a testing contract; and

(2) Unannounced inspections, including examination of records, at any time, by the operator, the Administrator, and if the operator is subject to state agency jurisdiction, a representative of that state agency.

§ 199.15 Review of drug testing results.

(a) *MRO appointment.* Each operator shall designate or appoint a medical review officer (MRO). If an operator does not have a qualified individual on staff to serve as MRO, the operator may contract for the provision of MRO services as part of its anti-drug program.

(b) *MRO qualifications.* The MRO must be a licensed physician with knowledge of drug abuse disorders.

(c) *MRO duties.* The MRO shall perform the following functions for the operator:

(1) Review the results of drug testing before they are reported to the operator.

(2) Review and interpret each confirmed positive test result as follows to determine if there is an alternative medical explanation for the confirmed positive test result:

(i) Conduct a medical interview with the individual tested.

(ii) Review the individual's medical history and any relevant biomedical factors.

(iii) Review all medical records made available by the individual tested to determine if a confirmed positive test

resulted from legally prescribed medication.

(iv) If necessary, require that the original specimen be reanalyzed to determine the accuracy of the reported test result.

(v) Verify that the laboratory report and assessment are correct.

(3) Determine whether and when an employee who refused to take or did not pass a drug test administered under DOT Procedures may be returned to duty.

(4) Determine a schedule of unannounced testing, in consultation with the operator, for an employee who has returned to duty.

(5) Ensure that an employee has been drug tested in accordance with the DOT Procedures before the employee returns to duty.

(d) *MRO determinations.* The following rules govern MRO determinations:

(1) If the MRO determines, after appropriate review, that there is a legitimate medical explanation for the confirmed positive test result other than the unauthorized use of a prohibited drug, the MRO is not required to take further action.

(2) If the MRO determines, after appropriate review, that there is no legitimate medical explanation for the confirmed positive test result other than the unauthorized use of a prohibited drug, the MRO shall refer the individual tested to an employee assistance program, or to a personnel or administrative officer for further proceedings in accordance with the operator's anti-drug program.

(3) Based on a review of laboratory inspection reports, quality assurance and quality control data, and other drug test results, the MRO may conclude that a particular drug test result is scientifically insufficient for further action. Under these circumstances, the MRO should conclude that the test is negative for the presence of a prohibited drug or drug metabolite in an individual's system.
